

Take your farm to the **next level**

Sign up with Echelon™ today to qualify for:

**Unlimited data management and variable rate services
for just \$10,000**

(or \$5/ac if less than 2,000 acres)

Are you ready for the next level of agriculture? Receive high performance precision agriculture solutions from Echelon for the annual subscription of just \$10,000*.

Echelon sees precision agriculture as the evolution of the CPS commitment to provide growers with the best in technology and innovation to support their continued success. What began with GPS and auto-steer has quickly evolved into a host of technologies. Echelon helps bring it all together: turning your data into insights using the precision equipment you already own. Take your farm to the next level.

Echelon makes it easy for you

Annual subscription includes:

- ✓ Unlimited annual farm data management
- ✓ Unlimited annual variable rate services
For fertilizer, seed and fungicide

Plus:

- ✓ All your data within the same field boundary
Including historical soil and tissue testing, drop points, agronomic data, note taking and logged data
- ✓ Crop planning and management tools, including cost of production calculator
Manage production with accurate planting information and financial crop plans
- ✓ Seamless data transfer to equipment*
Ability to send and receive files to and from the controller
- ✓ Free in-season satellite imagery
Landsat8 & Sentinel imagery throughout the growing season
- ✓ View nutrient reporting and lab recommendations
Easy access to view soil and tissues test results and lab recommendations
- ✓ Track and analyze decisions
Turn your farm data into profitable proof

And on farm technology consultation:

- ✓ Free on farm installation* from Echelon equipment specialists
Dedicated to make the transition easy
- ✓ Easy access to local advisors
Convenient help when and where you need it
